

# CONFUZZLE: A Wordlist

compiled by Rob Speer (rspeer@mit.edu)

**How to read the list:** Capital letters are stems. Lowercase letters complete the preceding stem to form a valid word. Stems without - are themselves valid.

The main entries in this list come from the excellent ENABLE2K word list, by M. Leo Cooper. I've also marked where the list differs from the Scrabble "Official Tournament and Club Word List 2" (OWL2), based on information provided by the ENABLE project<sup>1</sup> and the National Scrabble Association<sup>2</sup>.

This table shows what the markings mean when words are not present in all wordlists:

| Marking               | Example         | ENABLE2K | OWL   | OWL2  |
|-----------------------|-----------------|----------|-------|-------|
| Asterisk              | WORD* s*        | Valid    | -     | -     |
| Two asterisks         | WORD** s**      | Valid    | Valid | -     |
| Bold                  | <b>WORD</b> s   | Valid    | -     | Valid |
| Bold with exclamation | <b>WORD!</b> s! | Valid    | -     | Valid |
| Question mark         | WORD? s?        | -        | Valid | Valid |
